

The background of the entire page is a complex, abstract pattern of blue and white lines, resembling a microscopic view of a virus or a network of fibers. A blue pull cord with a gold-colored connector is positioned in the upper right quadrant, looping over the top of the abstract pattern. The logo 'Hygenicord' is centered at the top, with 'Hygenic' in blue and 'cord' in black. Below it, the tagline 'The Protected Pull Cord' is written in a smaller, black, sans-serif font.

Hygenicord[®] The *Protected* Pull Cord

WHY HYGENICORD?

As hospital-acquired infections continue to rise in both frequency and cost, increasing numbers of hospitals, medical centers, extended care facilities and retirement homes are turning to antimicrobial additives to help protect environmental surfaces within their facilities. **Hygenicord** pull cords contain an antimicrobial agent that protects them from mold, mildew, fungal and bacterial degradation. The protective additive is silver; or more specifically, silver ions that are incorporated into the coating, creating a durable and long lasting protection for medical pull cords. **Hygenicord**, along with standard hospital infection control procedures and good hygienic practices, can help reduce the risk of healthcare-acquired infections at your facility. Use **Hygenicord** for assured sanitization.

HOW IT WORKS

The silver ion in the presence of moisture attaches to the microbe cell, effectively paralyzing it from reproducing and surviving in or on **Hygenicord**. Additionally, **Hygenicord** utilizes a durable coating that is non-porous and easy to clean.

*Don't settle for just a cleanable cord in your facility. Use **Hygenicord** and know that your cords are protected.*

In your commitment to reducing hospital acquired infections and offering the best in patient care, look to Hygenicord as an essential part of your infection control plan. Hygenicord pull cords provide a clean and durable surface with state-of-the-art technology to replace traditional braided cords that are difficult to clean and can harbor bacteria, fungus, mold and mildew. Hygenicord is the only commercially available pull cord in the United States that utilizes an antimicrobial additive that inhibits mold, mildew and fungal growth while protecting the cord from bacterial degradation, stains and odors. Hygenicord's cleanable and non-porous surface is easily sanitized with any commercial disinfectant. Hygenicord pull cords can be used for over-bed lights, nurse call stations, patient monitoring and leashes, with multiple designs and colors available to fit your needs.

Hygenicord Features:

- Antimicrobial Additive Protects Cord from Mold, Mildew and Bacterial Degradation
- Available in a Variety of Colors
- Long Lasting Glow-in-the-Dark Options
- Two Diameter Profiles (1.5mm/2mm)
- Easy to Grip
- Attachments to Retrofit any Over-Bed Light or Emergency Pull Stations
- Available in Bulk or Assembled

We provide custom color, diameter and break strength. With 20+ years in the cleanable pull cord industry we can help you every step of the way. Take advantage of our free sample of Hygenicord pull cords so you can be confident you are making a smart buy. Give us a call at 855-489-2693 or check out our website at www.hygenicord.com. With Hygenicord you know your cords are protected.

PLEASE NOTE: *Antimicrobial properties are built-in to inhibit the growth of bacteria that may affect this product. The antimicrobial properties do not protect users or others against bacteria, viruses, germs, or other disease organisms. Always clean and wash this product thoroughly before and after each use.*

(These colors and sizes are offered in both BULK and ASSEMBLED cords)
(Color - Part#)

Standard Colors

White - HW
Red - HR
Silver – HS

Glow-in-the-Dark Colors

White/Glows Blue - HWG
Blue/Glows Blue - HBG
Green/Glows Green – HGG

Available Sizes:

1.5 mm
2 mm

Basic Colors

 White (HW)

 Red (HR)

 Gray (HG)

Glow Colors

 White/glows blue (HWGB)

 Blue/glows blue (HBGB)

 Green/glows green (HGGG)

Bulk Cord

Hygenicord is available in a variety of bulk lengths and colors to match your facility's needs. Purchasing in bulk allows you to customize cord lengths to your specific requirements, especially if you have varying lengths in different rooms. We also offer a variety of attachments that easily attach to **Hygenicord**. All colors are available in either 1.5 mm or 2 mm diameters.

Bulk Cord Available Lengths/Pricing*:

	250 ft	500 ft	1000 ft	2000 ft
Basic Colors	\$138	\$225	\$420	\$720
Glow Colors	\$150	\$250	\$470	\$820

Pre-assembled Cords

Our pre-assembled cords are a great solution for those who are short on time. Let us do the work for you. Tell us what you need (i.e.-quantity, color, length & attachments) and we will assemble your cords in our facility. Your cords will be ready to use out of the package so you can simply snap them into your switches. Most pre-assembled orders ship same day and always within 24 hours. This is the perfect solution for tight deadlines and short-staffed operations.

Pre-Assembled Cord Available Lengths/Pricing*:

	2 ft	3 ft	4 ft	5 ft	6 ft	7 ft
Basic Colors	\$3.60	\$4.05	\$4.50	\$4.95	\$5.40	\$5.85
Glow Colors	\$3.70	\$4.20	\$4.70	\$5.20	\$5.70	\$6.20

*Minimum \$25 order for Assembled Cord.

When ordering Assembled Cords, please provide the following information:
Color/Size/Length/Top Attachment/Bottom Attachment
(Example: HR/2mm/5ft/CPI0/BC-M)

ATTACHMENTS *(available in packs of 10, 100, 200 pieces)*

SWAGE SLEEVES - Connects couplings and clips to Hygenicord. Also works great as a stop for bell shaped pendants and routing cord into switch. Eliminates the hassles of knots. SS364 fits 1.5mm Hygenicord/SSI 16 fits 2mm Hygenicord. Vice Grips or Crimp Tool Required.

PART #- SS364 & SSI 16 (10/\$2.00, 100/\$15.00, 200/\$24.00)

CHAIN COUPLING - Allows for easy connection to beaded chains. Use in conjunction with Oval Swage Sleeve. CP6 fits a #6 beaded chain & CPI0 fits a #10 beaded chain. (NOTE-Size 6 is standard and most common)

PART #- CP6 & CPI0 (10/\$3.00, 100/\$20.00, 200/\$30.00)

SWITCH PROTECTOR - Attaches to beaded chain coming from light switch. Switch Protector breaks away from switch when excess of 12lbs (+/-2lbs) is applied to cord. Save time and money with this inexpensive attachment and never replace a switch again!

PART #- SP (10/\$7.50, 100/\$60.00, 200/\$100.00)

QUICK RELEASE CONNECTOR - Two part piece that can be installed anywhere on the cord to allow for a release when exposed to 5-7 lbs of force. Ideal for leashes that attach to bed rails. Requires two SSI 16 Sleeves and Crimp Tool to install.

PART #- QRC (10/\$5.00, 100/\$45.00, 200/\$80.00)

PLASTIC BED CLIP - Durable white plastic bed clip for easy attachment to bedding or looping around bed rail and clipping to Hygenicord. Eliminates the need to tie cord to bed rails.

PART #- BCPW (10/\$4.00, 100/\$30.00, 200/\$50.00)

METAL BED CLIP - Sleek and durable, this metal clip easily attaches to bedding, pillow cases or gowns. Another option to eliminate the need to tie cords to bed rails.

PART #- BCM (10/\$4.00, 100/\$30.00, 200/\$50.00)

CORD END PENDANT - The perfect finishing piece for all your pull stations. The Cord End Pendant makes for easy gripping even for those with arthritic hands. Attach with a single knot or crimp. Can also be installed anywhere on the cord for additional gripping points.

PART #- CEPIW (10/\$4.00, 100/\$30.00, 200/\$50.00)

CRIMP TOOL - Easy to use crimping tool for Swage Sleeves. Available in two sizes, CT364 works for SS364 and CT116 works for SSI 16.

PART #- CT364 & CT116 (\$39.00 each)
